AGRARIUS LLC AWARDED BEST AGRIBUSINESS

Sustainable Farming -- A Multi Disciplined Tool

Agrarius LLC was recently recognized at the Monterey County Salute to Small Business awards luncheon as Best Agribusiness. Small businesses are a source of creativity and invention, said Masaaki Tanaka, president and chief executive officer of Union Bank who with KSBW-TV hosted the event.

Agrarius, with their Hawk-Eye™ Remote Sensing System, captures high-resolution visual and thermal images of agricultural crops for analyses that support crop health and quality; and the efficient use of water, herbicides, pesticides, and labor resources. Agrarius' customers also use the Hawk-Eye™ System to assess the energy conservation effectiveness of their climate-controlled homes, offices, and storage facilities.
